Novo Nordisk Canada Inc. recognized as one of Canada's Top 100 Employers for 2021

Mississauga, ON, November 13, 2020 – Novo Nordisk Canada is pleased to announce that it has been named one of Canada's Top 100 Employers for 2021. This award is presented by Mediacorp Canada Inc. and recognizes Canadian businesses who are leading with excellence and offering exceptional workplaces for their employees.

Canada's Top 100 Employers for 2021 evaluates against eight major criteria to determine which company offers the most progressive and forward-thinking employee programs. This includes criteria such as physical workplace, work atmosphere and social; health, financial and family benefits and employee communications.

Novo Nordisk Canada is proud to be recognized for the organization's on-going commitments to ensuring the health and well-being of each employee is top priority. The recognition speaks to the company's values and mission in ensuring that Novo Nordisk Canada continues to provide a healthy workplace culture for all, while ensuring that patients continue to receive access to life-changing medications to support their treatment journeys.

"While this year has been nothing short of uncertainty and challenges, one thing has remained consistent – and that's the commitment and dedication that Novo Nordisk employees continue to bring to the table every day," says Béatrice Clerc, President, Novo Nordisk Canada. "We would be nothing without our employees, they are the reason we are being recognized for this great achievement. We are always looking for ways to create a safe and healthy workplace culture to help employees be the best colleague, parent, friend and family member."

Despite the impact of the global pandemic across the country, Novo Nordisk Canada has continued to put the health and wellness of its employees at the forefront through various internal initiatives. Employees have access to flexible work schedules, generous health benefits and even extended vacation time.

“As COVID-19 took a toll on our economy, we had a responsibility to ensure that we had unique and consistent company initiatives to support the health and wellness of each employee,” says Angie Ng, Director, Human Resources, Novo Nordisk Canada. “We will continue to enhance our workplace to ensure that it remains a balanced, healthy and flexible environment because at Novo Nordisk Canada, it’s always people first.”
